for the year

2018

## **Group Lessons**

Our approach towards group lessons is still to keep them as individualized as possible by limiting them to a maximum of 12 students per class. Hence there is still significant interaction amongst the students themselves as well as with the teacher. Differently from individual lessons, group classes make communication more frequent and group work possible, which is crucial for the students who would like to enhance their speaking skills. All students are placed according to their placement test score, our class levels starting from beginners to advanced.
